#### SAN SEBASTIÁN

### El Consejo de Estudiantes de la UPV tacha de injusta la OTA

24.01.13 - 00:12 - AINGERU MUNGUÍA | SAN SEBASTIÁN.

El Consejo de Estudiantes del campus de Gipuzkoa de la UPV tachó ayer de «injusto» e «inaceptable» que los alumnos tengan que pagar OTA por ir a clase. Este organismo mostró su «completa oposición» a que el Ayuntamiento coloque estacionamiento de pago en la universidad y reclamó una «tarifa 0 euros» para los estudiantes con tarjeta que les acredite como tales.

En opinión del Consejo de Estudiantes de la UPV, la regulación del aparcamiento con OTA «no ha solucionado la falta de espacio para aparcar» e incluso «en algunos lugares ha creado más problemas de los que ha solventado, como en Arriola y Berio». El consejo echa en falta «un mayor número de plazas» para aparcar y afirma que los lugares específicos habilitados para los estudiantes y las zonas para aparcar vehículos de alta ocupación (coche compartido) han tenido «poco éxito». Este organismo pide a todos los grupos municipales que cumplan con sus «promesas electorales» y retiren la OTA del campus. Además reclama un transporte publico «más accesible» con «ampliación de horarios y frecuencias».

#### Study on Urban Aspects of the Internalisation of External Costs -MOVE/B4/310-1/2011

Final report

Client: DG MOVE, in the context of the Multiple Framework Service Contract for Economic

Assistance (ref TREN/R1/350-2008 lot 2)

Rotterdam, September 2012

The conference is in the Framework of the European Project about sustainable Mobility: U-MOB LIFE.

Conclusion:

Let transform the local mobility pattern seeking at the same time the change of the conceptual framework

Good luck

Moltes gràcies per la seva atenció

Muchas gracias por su atención

Thank you very much for your attention
