“Governance and management in different countries”

How the universities manage sustainable mobility issues to the campus as well inside the campus?

1

Which is the higher body, board or representatives in the university, who represent society? And how concerned they are about sustainable mobility?

2

What actions or steps have been taken?

3

How this actions/policies affect to other administrations (such as city hall, local and national authorities)?

4

Inside of the university: how are these actions organize? Outside of the university: How are organized the relations with the different levels of public administration?

5

Which organizational unit usually propose the sustainable mobility projects? What governing body decides and finances them?

6

In general, do you consider the different administrations have been adequate roles?
